

**markt guru Österreich** is looking for a

## Senior DevOps Engineer (m/w/d)

**40 hours/week, Location Vienna**

### Your responsibilities include:

- Database development with a high focus on performance, security and reliability
- Building software and systems to manage platform infrastructure and applications
- Develop monitoring and alerting rules to prevent outages
- Participate in scrum meetings, platform management and capacity planning
- Improving the deployment process to make it as uncomplicated as possible
- Be on an on call rotation to respond to incidents

### Your profile should include:

- 5 years of experience as a DevOps engineer or site reliability engineer
- Excellent knowledge in SQL development
- Good knowledge in Windows and/or Linux administration.
- Being familiar with cloud technologies
- .Net core knowledge is a nice to have
- Agile and open mindset
- Proficient in English, German is a plus

### This is what we offer:

- Become part of a motivated, determined and dynamic team with flat hierarchies and a family like working atmosphere
- We offer an exciting development opportunity in a promising industry within a team characterized by collegiality and individuality and an innovatively operating company
- We offer you the opportunity to perfect your expertise in the growing market of mobile advertising

- In addition, you can expect a results-oriented culture with plenty of room for initiative and creativity
- We also provide coffee, tea, fruits, nuts and massages for free in our modern downtown office.
- We look forward to celebrating joint successes with you at one of our many team events

The gross salary for this role is €60,000 p.a. (full-time basis - 40 hours/week). Overpayment according to classification, work experience, and skills is to be expected.

### **Are you ready to take on the challenge?**
